PHONE MOUNTS

Mobile Phone Mount | 8720

Finally, you can have an easy way to securely mount and interact with your phone while riding your bike. The OnGuard Bicycle Handlebar Phone Mount expands and adjusts to fit most phones, even ones that are plus-sized. It has a strong ball joint and can rotate back, forth and spin which allows you to position your phone for the best viewing angle. It can hold your phone in either portrait or landscape views. The phone mounting mechanism is universal, easy and convenient. The additional silicone safety web ensures an extra tight grip on your phone to prevent it from falling off. This adjustable phone mount fits most bikes and handlebar sizes with no tools necessary for installation. Stay connected at all times, enjoy your music and monitor your speed and trip data while on your ride.

Premium Mobile Phone Mount | 8721

Premium has finally arrived! No more phone mounts that let your phone fall out and break or mounts that lose position with a single bump in the road. The OnGuard premium bike handlebar phone mount is adjustable and sturdy to fit many types of phones all with a simple and easy-to-use turn dial. Rest assured that there are no tools needed for installation or removal. Don't worry about compatibility, it even fits on all types of bike handlebars and holds your precious phone securely with inset rubber grips! It also fits most phone models and sizes. Need to grab your phone after a ride or on the go? Well, we thought of that with our quick release lever, easily take your phone out. Aesthetically we let your phone shine with our minimalistic design, avoiding unnecessary bulk on the handlebars allowing for more space for other gadgets or your hands.

Air Storm 100 Floor Pump | 8702

Pressure: Up to 100 psi

OnGuard Air Storm 100 psi Bike Pump – A storm is brewing. The Air Storm 100 is the perfect at home pump with it's wider barrel for faster inflation so you can easily inflate bike tyres, balls and inflatables. Suitable for both Schrader and Presta type valves. A large handle for easy use and comes with a ball needle and inflatable adaptors

Smart Bike Pump | 8703

Pressure: Up to 80 psi

OnGuard Smart Pump packs a full-sized floor pump into a more compact size. Allows you to move more air per stroke than most other pumps. The folding feet and compact pump handle allow for this pump to be easily packed in your car or in your bag for easy transportation when out and about with your bike. The pump head comes with Schrader valve and adapters for use with presta valves, sports balls and inflatables. Ideal for wide tyre bikes that inflate up to 80 psi.

Smart Pump Pro with gauge | 8737

Pressure: Up to 80 psi

OnGuard Smart Pump Pro packs a full-sized floor pump into a more compact size. Allows you to move more air per stroke than most other pumps and with a built in pressure gauge ensuring you get the right PSI needed for your tyres. The folding feet and compact pump handle allow for this pump to be easily packed in your car or in your bag for easy transportation when out and about with your bike. The pump head comes with Schrader valve pump head and adapters for use with presta valves, sports balls and inflatables. Ideal for wide tyre bikes that inflate up to 80 psi.

HP 140 Floor Pump | 8704

Pressure: Up to 140 psi

OnGuard HP 140 features a sturdy steel barrel and base, extra long hose and large easy to read gauge help make it a great choice for home or workshops. Complete with a dual pump head at the end of a 70cm hose. Techno-polymer pump handle provides greater comfort and a non-slip grip. An extra large 2.1-inch gauge features large easy to read numbers on the gauge to highlight your desired PSI number. The pump is capable of reaching 140 psi and is excellent for using with high pressure bicycle tyres. Also included with the pump is a pair of adapter needles for use with sports balls or inflatables.

HP 120 Floor Pump | 8705

Pressure: Up to 120 psi

OnGuard HP 120 features a sturdy steel barrel and base, extra long hose and large easy to read gauge help make it a great choice for home or workshops. OG-Switch pump head at the end of a 78cm hose instantly adapts from Presta to Schrader valves with the flick of a lever. Techno-polymer pump handle provides greater comfort and a non-slip grip. An extra large 2.75-inch gauge features large easy to read numbers on the gauge to highlight your desired PSI number. The pump is capable of reaching 120 psi and is excellent for using with high pressure bicycle tyres. Also included with the pump is a pair of adapter needles for use with sports balls or inflatables.

Alloy Mini Pump | 8706

Pressure: Up to 80 psi

OnGuard Alloy Mini Bike Pump. A super lightweight alloy barrel pump with alloy handle that inflates up to 80 PSI tyres. Convertible pump head works with both Schrader and Presta type valves. Bottle cage mounting bracket enables mounting to frame. Comes with sports ball needles..

Alloy Universal Bottle Cage with Velcro Strap | 8718

The OnGuard Universal water bottle bike cage can be mounted to most tubes on your bicycle allowing you to increase the amount of water that you can bring with you on your rides. The unique Alloy bottle cage has the ability to be mounted in 3 different positions so the water bottle can be removed from the center position or changed to a left or right-handed bottle cage for smaller frames or bikes with limited area to mount a bottle cage. The universal mounting block can be removed if you would like to mount this bottle cage directly to your factory bottle cage mounts.

Pulse Bottle Cage | 8719

The OnGuard Pulse water bottle cage has a tough thermoplastic construction. Ideal for all types of terrain, even the steepest ones, as it firmly holds the bottle in place, all the while maintaining great adaptability to the shape of the bottle, with easy insertion and extraction.

Premium Cycle Pack | 8722

The OnGuard Premium Bike Accessories Pack - The 7-piece set gives you the essential items for an enjoyable ride on your bicycle. A 47-lumen front and 4 LED rear light provide visibility to see the road ahead and light to be seen and with batteries included. A durable 710ml BPA free plastic water bottle and cage provides you with a great way to carry your water. The set also includes a bag that easily attaches to the underside of your bicycle seat allowing you to carry any essential items. Also included is a high-pressure alloy mini pump with a convenient frame mounting bracket that allows you to inflate your tyres wherever you might need. Lastly, included is a U-Lock to protect your bicycle when away.

Bicycle Starter Pack | 8723

The OnGuard 6-Piece Bike Accessories Starter Pack - Includes six essential items to help you get your bicycle ready for your rides. The kit includes a mini hand pump with folding T-handle that allows you keep your tyres properly inflated. The convenient frame mounted bracket holds the pump so you can bring the pump along with you. Also included is a front and rear LED light set. Both lights have multiple modes (constant and flashing) to help you be seen when out on the road. The wide mouth, 590ml water bottle with reinforced plastic water bottle cage allows you to carry your water and stay hydrated during your ride. Lastly, the kit includes a 150cm long, self-coiling keyed cable lock so you can lock up your bike while you step away.

Bike Grips

BIKE GRIPS

OnGuard Lock on bike handlebar Grips - Ideal for BMX, MTB or most commuter style bikes. These grips are easy to install and prevent your grip from slipping or spinning. Anodized lock rings. Easy to install with a 3mm allen key included.

Lock On Mountain Bike Grips | 8736

Color: Red

Sport 1.5 Hydration Bag | 8729

OnGuard Outdoors Hydration Bag 1.5 Litres - An ideal way to stay hydrated while enjoying the outdoors. Constructed to be durable and comfortable all day long. There is 1 large main compartment with an external zipper and a separate hydration bladder sleeve, which allows you to easily carry extra food, tools, or other critical items to make sure that you have all that you need for your journey. The pack also has an external mesh pocket with a reflective trim to conveniently hold your energy bars or mobile phone. Housed inside the zippered hydration sleeve is a 1.5-litre hydration bladder made of BPA-free PEVA material ensuring a clean and pure taste with automatic shut off valve to prevent leakage and a high volume bite valve with dirt and dust protection

Light-Up Hydration Bag | 8724

OnGuard Smart Light-Up Bike bag and Outdoors 1.5 Liter Hydration Bag - Ideal way to stay hydrated and carry some essential gear while enjoying the outdoors. Now you can be seen in low light conditions. Compartments allow you to easily carry extra food, tools, or other critical items to make sure that you have all that you need for your journey. Housed inside the zippered hydration sleeve is a 1.5-litre hydration bladder made of BPA-free PEVA material ensuring a clean and pure taste with automatic shut off valve to prevent leakage and a high volume bite valve with dirt and dust protection

Top Tube Bike Bag with Removable Sleeve | 8726

OnGuard Top Tube Bike Bag - Perfect for keeping your smartphone and essential items close at hand during your ride. It's excellent for everything from casual riding to touring and all-day rides. The pack's size is ideal for numerous items like smartphones, wallets, energy bars, sunglasses and more. The phone pocket fits phones up to 6.5 inches long and three inches wide. Heavy-duty materials and a sealed zipper help keep your items safe from the elements.

3 in 1 Bike Bag | 8727

OnGuard 3 in 1 Bike Bag is what the title says, 3 different bags in one. It converts from handlebar to rack bag to shoulder bag. As easy as 1-2-3. All you have to do is first, unzip the bag to open it. Second, pull on the inner strap and third, it is a rack bag! Perfect for riding on your bike or taking your items with you. We got you covered at all steps along your ride. Now you only need 1 bag! Quick and easy conversion gives you extra-large storage. It has a touch screen compatible phone sleeve and an outer zippered pocket for easy access. And you can take it with you by simply disconnecting it from your bicycle and attaching the shoulder strap.

Smart Charge Phone and Storage Bag | 8725

OnGuard Smart Phone Charge Bike Bag - Lets you store, use and charge your phone all at once. USB compatible, containing a rechargeable and removable battery so you can charge your phone while you ride. Constructed of durable water repellent fabric. It has a large touchscreen compatible window on the top of the bag, so you see your phone and still utilize your touchscreen functions. There is an elastic strap on the bottom of the bag that holds the included 2000mAh lithium-ion rechargeable battery in place. There is ample room to also store your keys, wallet, and snacks.

Deluxe Under the Seat Bag | 8728

OnGuard deluxe seat bike bag is ideal for carrying a spare tube, tyre levers, multi-tool, keys and some spare cash on your ride. Its premium weather resistant fabrics make sure it will last. Features quick on/off hook and loop straps that make it easy to take the bag off as necessary. It is time to go deluxe and enjoy the ride.

Triangle Bag | 8730

The OnGuard triangle bag fits perfectly in your bicycle frame. It adds a huge amount of storage with an internal pocket perfect for you. Even better, Easy to install with no tools required. OnGuard reflective logo.

Cycling Shorts

CYCLING SHORTS

OnGuard Unisex Bike Shorts - The power of comfort. Isn't one of the worst parts of riding being uncomfortable or sore, well don't suffer. OnGuard unisex bicycle shorts let you keep riding with comfort and ease. They are designed with an ergonomically molded pad to ensure additional comfort. The shorts are made of form fitting spandex/nylon, so the shorts will mold to your body while still being breathable and comfortable. The shorts also have silicone grippers molded into the legs of the shorts to help prevent riding up during exercise. Extend your ride while feeling great.
